CMAA has created the Sustainability Project Spotlight as a regular focus given to member projects nationwide that are building the way to a better future.

[Health and Life Sciences Building at Anne Arundel Community College \(AACC\)](#) is a 175,000-square-foot college instructional and lab building completed by the design team led by SmithGroup and builder team by Whiting Turner.

*The CMAA Sustainability Subcommittee is actively seeking to spotlight your projects! Please email us at [communications@cmaanet.org](mailto:communications@cmaanet.org) with a project name and person to contact.*
